

Terapia escalonada de Medicare Parte B

Los medicamentos de esta lista requieren terapia escalonada.

Terapia escalonada significa que usted debe probar un medicamento antes de que cubramos otro medicamento. Antes de que cubramos determinados medicamentos, es necesario que primero pruebe un medicamento diferente o uno que sea menos costoso. Si el primer medicamento no funciona, cubriremos el segundo medicamento.

Puede solicitar una excepción si cree que necesita un medicamento de terapia escalonada. La persona que receta o su representante autorizado también pueden solicitar una excepción. Para obtener información sobre cómo realizar la solicitud, consulte su Manual del Afiliado.

Se aplica la terapia escalonada si el medicamento no se ha utilizado en los últimos 365 días.
